PPG1071

Maximize your automatic transmission investment with a properly scheduled maintenance program. Depending on your requirements and budget, our Allison Performance PM Solutions offers you the flexibility to choose between extended life synthetic fluid or conventional Dexron.

Our Performance PM Solutions includes our **PENN360** visual inspection, removal and disposal of old fluid and filters, installation of Genuine Allison Filter(s) and required gaskets plus your fluid selection. Electronic transmissions are checked for diagnostic codes and all units are tested to provide maximum performance.

Prices listed below are for services performed at our facility and on-site service is available at a nominal fee. For more information on all our Automatic Solutions contact any of our nine conveniently located service centers.
